

miscela

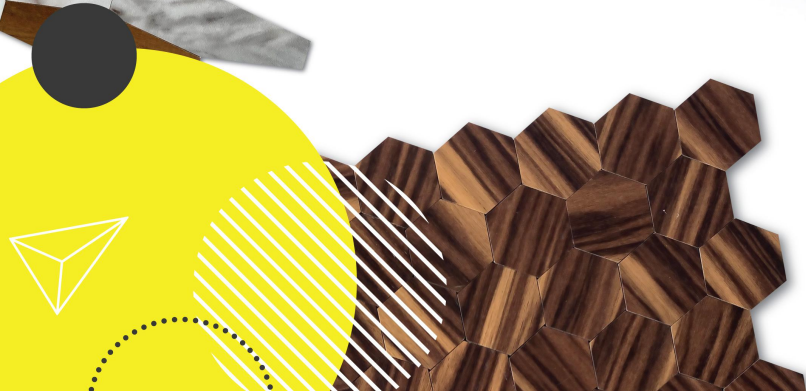

**Life is a mixture of light & shadow, calm & chaos,
joy & despair, euphoria & melancholia, harmony &
contrast, poetic & literal, pragmatic & utopian;**

Designed to invoke interest in subjects to spark flows of conversation -
penning a narrative to a storyline composed of a medley of randomness,
a macédoine of coincidental details by chance.

Miscela - Italian for 'mixture' or 'blend' explores the idea of
materiality - a creative mix & matching experimentation of
putting different elements together resulting in an exquisite
patchwork of unparalleled sublime beauty. The material
library is curiously curated from an assemblage of diverse
yet distinctive materials - each with a varying degree of
characteristics. Parallel in concept as to how a perfumer
would construct olfactory compositions, we put together
select elements to produce visual compositions that are
not just aesthetically pleasing but also specifically designed
to invoke certain moods. The end result of this experimentation
produces a melange of heterogeneous yet chic collections.
