EXTERIOR WALL DRY HANGING SCHEME

6mm Installation Method

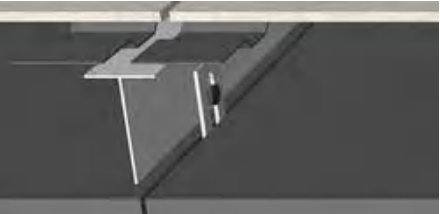

Milling installation

Single hook installation

12mm Installation Method

Milling installation

Single hook installation

Slot installation

Double hook installation

Button plate installation

Overlapped installation with hook

LIGHT WEIGHT SYSTEM

Our porcelain slab is applied to various dry hanging system to form rich decorative effect on the exterior wall of the building.

The lightweight system provides detailed drawings of the joints laid on the wall and the horizontal section installation, and joints are added according to the spacing width.

The 6063T5 extruded section,extrusion of horizontal profiles aluminium of GB5237.1~5-2008、 GB5237.6-2004.

Specialized stainless steel back groove type attachment fittings. The quantity depends on the load.

Fixed hook, extrusion of Aluminum Alloy 6063T5 by Inserting Horizontal Profiles GB5237.1~5-2008、 GB5237.6-2004

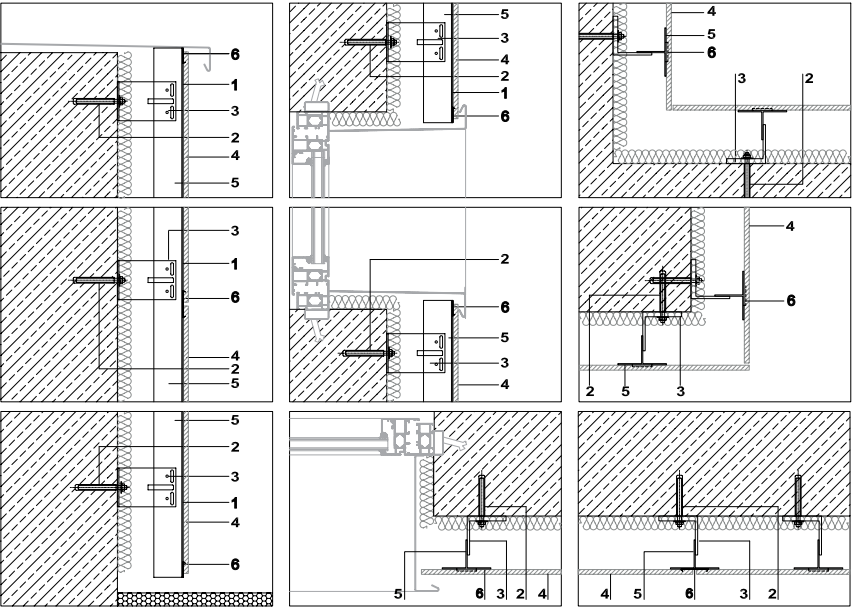

Fix the support on the structure with mechanical or chemical bolts when necessary.

Fiberglass reinforcing net, grid of 5X5mm. Uniformly brushing of epoxy resin on the back

EXTERIOR WALL
DRY HANGING SCHEME

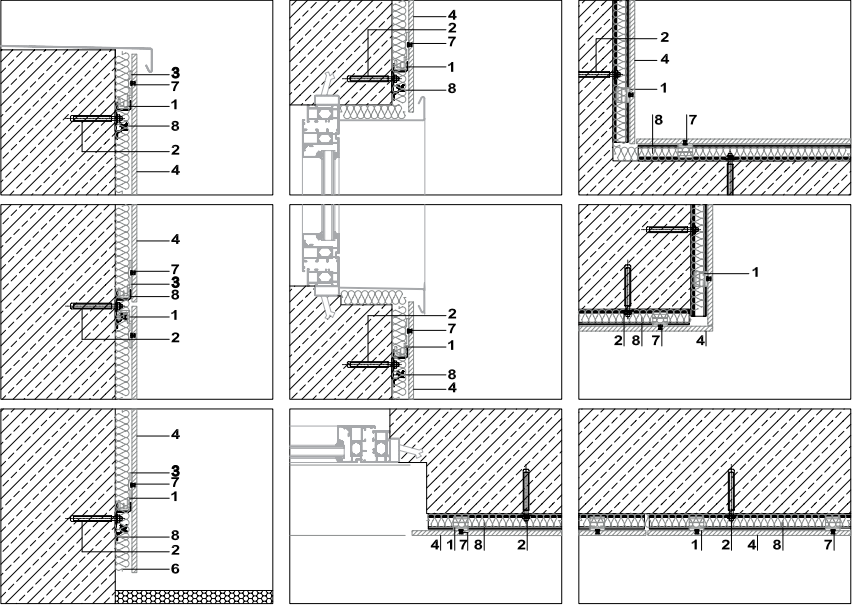

TECHNICAL
PARAMETERS

6mm Installation Example

Adhesive layer
Bolt
Screw bolt
Large slate
Cube/column
Plug hardware accessories

12mm Installation Example

Hook
Bolt
Backbolt connector
Large slate
Cube/column
Thermal insulation material
Backbolt
Connecto
